# 1.0 Using NAVFone

## 1.1 Launching NAVFone

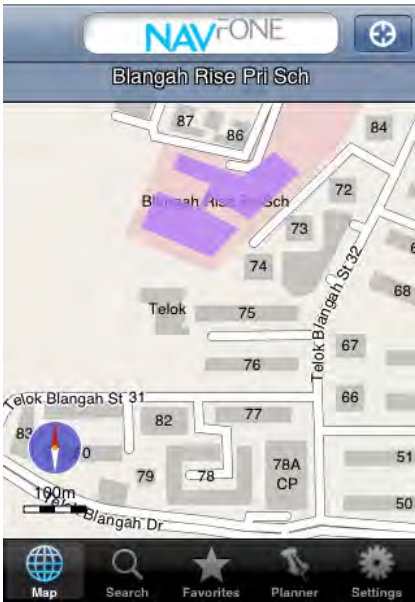

To launch **NAVFone**

- Tap on the NAVFone icon in the Home Screen

When NAVFone is initialized, it would show the map.

## 2.0 The Map View

Map View

All maps shown are always orientated to the North.

Select an object by tapping on the object. The name of the item selected is shown at the top of the map.

The scale on the bottom right changes according to the zoom level and provides a rough estimate of distances between places and objects.

The Map View window shows the main screen.

Quick Access Menu

Double tap on the map to call up the Quick Access Menu (QAM).

The QAM and its functions will be further explained on the later section of this guide.

## 3.0 Basic Map Function

### 3.1 Zoom Options

#### Zoom In

- On the map, pinch your fingers apart.

Note pinch

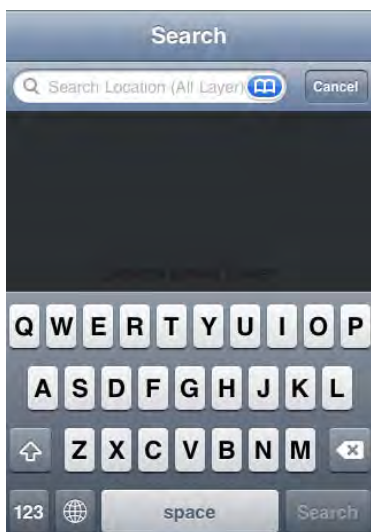

#### Zoom Out

- On the map, pinch your fingers together.

## 3.2 Map Panning

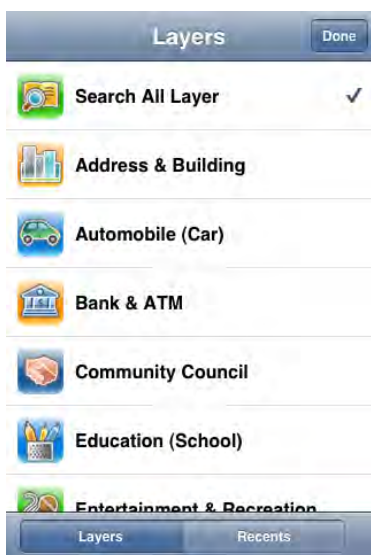

## 4.0 Search

To access the Search feature

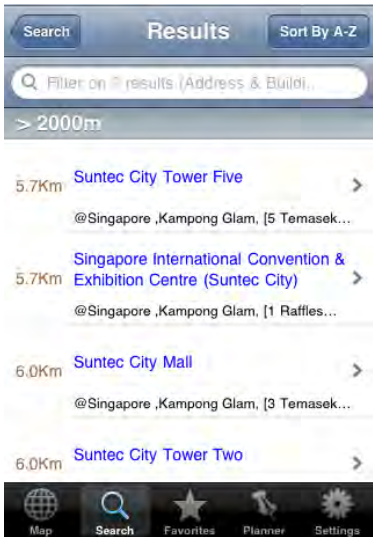

- Tap on Search
- Select a search layer by tapping on  .

- For Layer search, select Layer
- Tap on Done
- **Select All Layers for a Generic Search**

- Key in the search query

- Tap on **Sort By A-Z** to sort alphabetically.
- Tap on **Sort By Km** to sort by distance.
- Tap on the result for a detailed view.

To set selected result as the Start Point

- Tap on Set as Start

To set selected result as the End

- Tap on Set as End

To view the selected result on map

- Tap on View on Map

To search for various amenities in the vicinity of the selected result

- Tap on Search Nearby

## 5.0 Public Transport Planner

### 5.1 Overview

Tap on Planner

The following items are available.

1. Start
  - Defines the beginning point of your journey
2. End
  - Defines the end point of your journey
3. Reverse
  - Swaps the Start and End locations
4. Clear Locations
  - Clears the Start and End locations
5. Public Transport Route
  - Begins the route calculation

## 5.2 Setting the Start & End Point

### 1. Via the Quick Access Menu (QAM)

- Double tap on selected location on the map
- On the QAM, tap on Set as Start. This will set the selected location as the route Start Point.
- The same process can be used to set the End point. Once the location has been selected, tap on Set as End.

### 2. Via the Search Result (Refer to 4.0 Search)

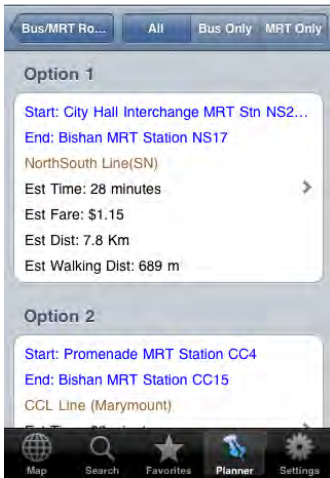

- Tap on Set as Start to select the location as the route Start Point.
- Tap on Set as End to select the location as the route End Point.

### 3. Via Bookmarks (Refer to 6.0 Bookmarks)

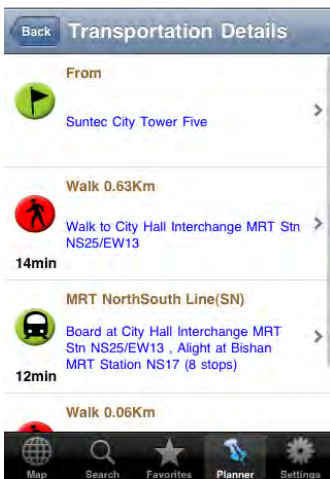

- Tap on Set as Start to select the location as the route Start Point.
- Tap on Set as End to select the location as the route End Point.

## 5.3 Routing & Cost

Upon selecting the Start & End Point, NAVFone will generate up to a maximum of 3 routing options.

- Scroll up or down to view the Options
- Tap on All, Bus Only or MRT Only to filter the options
- Tap on an Option to view the Transportation Details

A breakdown of the route is showed. The information of estimated total cost, time, and distance are provided.

You can see the location of the bus stop or station relative to the start or end point in the map by tapping to reveal map details.

## 6.0 Favorites

Favorites are points that can be created and displayed in the map as an icon with a label attached to it. All Favorites can be saved for later use and easy reference. Each Favorite label, icon type and size can be set customized. A short note can also be added.

### 6.1 Create a New Favorite

There are 2 methods to create new Favorites.

#### 6.1.1 Via the Quick Access Menu (QAM)

- Double tap on selected location on the map

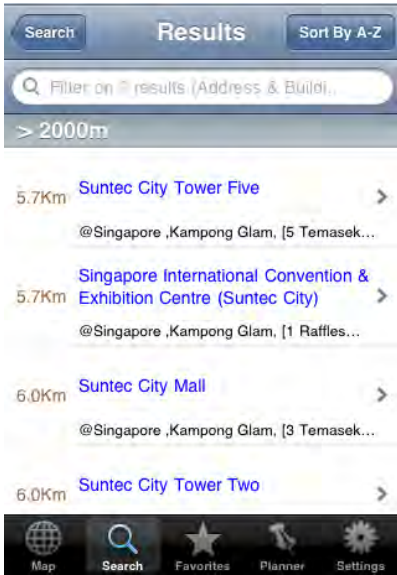

- Tap on Add to Favorites

The screenshot shows a 'New Favorite' dialog box. At the top, there are 'Cancel' and 'Save' buttons. Below the title bar, there are three sections: 'Name' with a text field containing 'Blangah Rise Pri Sch', 'Note' with an empty text field, and 'Icon' with a dropdown menu showing 'Visible'.

- Enter a name for the Favorite or use the default name.
- Optionally, you may key in a Note or change the Icon.
- Tap on Save.

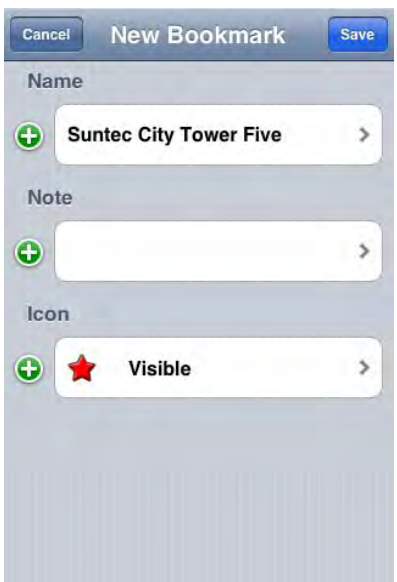

## 6.1.2 Via the Search Result

- Tap on the selected result to view the Details

- Tap on Add to Bookmarks

- Enter a name for the Bookmark or use the default name.
- Optionally, you may key in a Note or change the Icon.
- Tap on Save.

## 7.0 Settings

This feature allows you to change certain NAVFone options and settings.
