Safety Information

For safety, user should not operate this system while driving or in motion. User shall be responsible for his/her own safety and adhere to all traffic rules and regulations at all times. Map data are updated periodically and user shall exercise good judgment when using the system for map guidance.

AGIS shall not be liable for any loss or damage caused by the usage of the system.

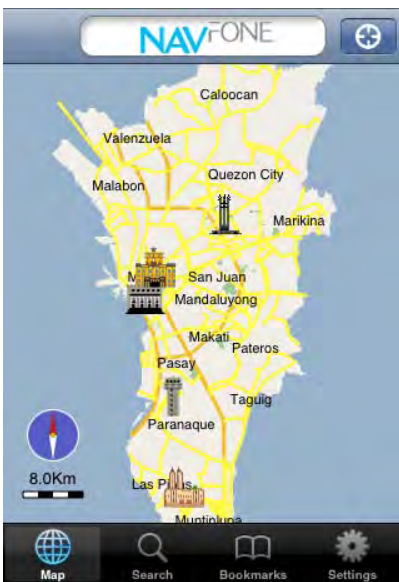

1.0 Using NAVFone

1.1 Launching NAVFone

To launch **NAVFone**

- Tap on the NAVFone icon in the Home Screen

When NAVFone is initialized, it would show the map.

2.0 The Map View

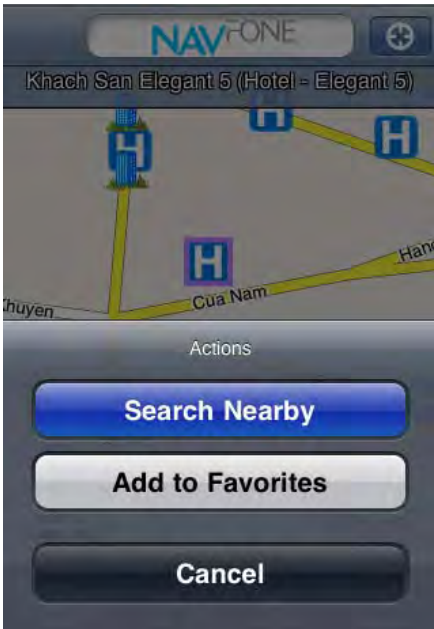

Map View

All maps shown are always orientated to the North.

Select an object by tapping on the object. The name of the item selected is shown at the top of the map.

The scale on the bottom right changes according to the zoom level and provides a rough estimate of distances between places and objects.

The Map View window shows the main screen.

Quick Access Menu

Double tap on the map to call up the Quick Access Menu (QAM).

The QAM and its functions will be further explained on the later section of this guide.

3.0 Basic Map Function

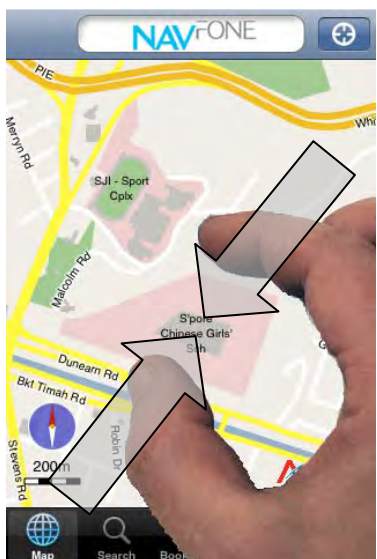

3.1 Zoom Options

Zoom In

- On the map, pinch your fingers apart.

Note pinch

Zoom Out

- On the map, pinch your fingers together.

3.2 Map Panning

4.0 Search

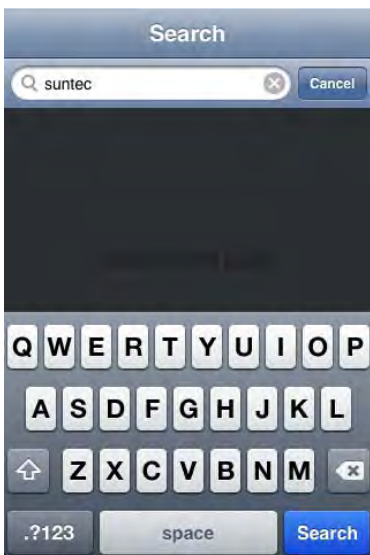

To access the Search feature

- Tap on Search
- Select a search layer by tapping on  .
- Search all layers is preferred.

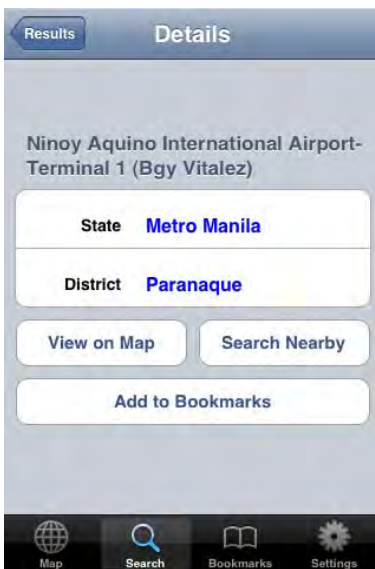

- For Layer search, select Layer
- Tap on Done

- Key in the search query

- Tap on **Sort By A-Z** to sort alphabetically.
- Tap on **Sort By Km** to sort by distance.
- Tap on the result for a detailed view.

- To view the selected result on map
- Tap on View on Map
- To search for various amenities in the vicinity of the selected result
- Tap on Search Nearby

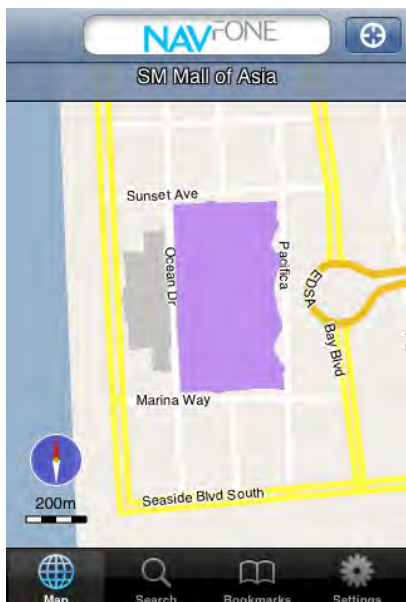

5.0 Favorites

Favorites are points that can be created and displayed in the map as an icon with a label attached to it. All Favorites can be saved for later use and easy reference. Each Favorites label, icon type and size can be set customized. A short note can also be added.

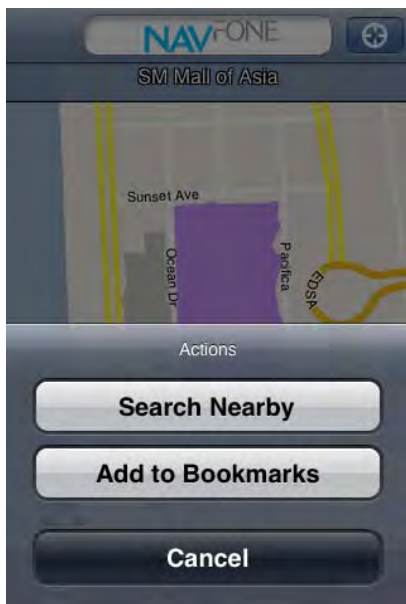

6.1 Create a New Favorite

There are 2 methods to create new Favorites.

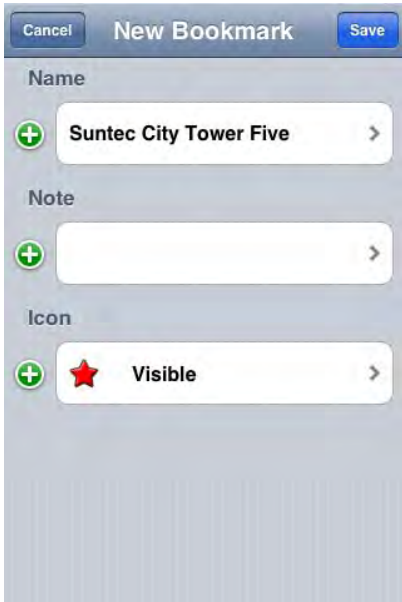

6.1.1 Via the Quick Access Menu (QAM)

- Double tap on selected location on the map

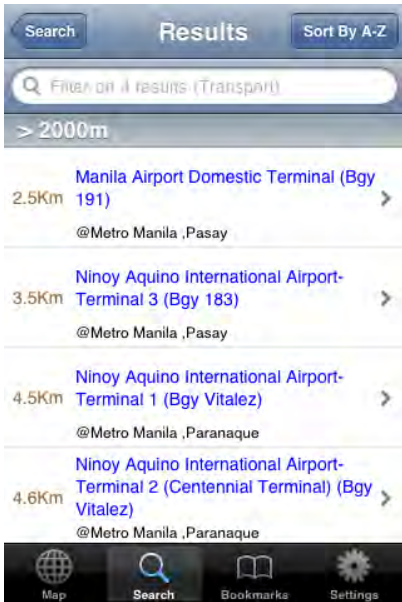

- On the QAM, tap on Set as Start. This will set the selected location as the route Start Point.
- Tap on Add to Favorites

- Enter a name for the Bookmark or use the default name.
- Optionally, you may key in a Note or change the Icon.
- Tap on Save.

6.1.2 Via the Search Result

- Tap on the selected result to view the Details

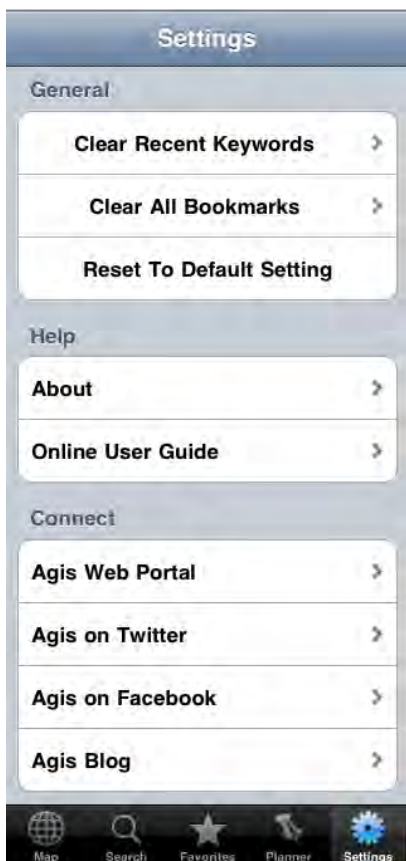

- Tap on Add to Bookmarks

- Enter a name for the Bookmark or use the default name.
- Optionally, you may key in a Note or change the Icon.
- Tap on Save.

7.0 Settings

This feature allows you to change certain NAVFone options and settings.

General

- Clear Recent Keywords
- Clears all Bookmarks
- Reset to Default Setting

Help

- App 'About' Section
- Online User Guide

Connect
